

# School of General Relativity, Astrophysics and Cosmology

## Wednesday, 2 August 2023

**Relativistic effects in spectra and polarization from black hole accretion disks (09:00 - 10:00)**

-Conveners: Vladimir Karas

**Relativistic effects in spectra and polarization from black hole accretion disks (12:20 - 13:20)**

-Conveners: Vladimir Karas

# Thursday, 3 August 2023

**Relativistic effects in spectra and polarization from black hole accretion disks (10:00 - 11:00)**

-Conveners: Vladimir Karas

**Relativistic effects in spectra and polarization from black hole accretion disks (12:20 - 13:20)**

-Conveners: Vladimir Karas

# Friday, 4 August 2023

## Relativistic effects in spectra and polarization from black hole accretion disks (09:00 - 10:00)

-Conveners: Vladimir Karas
